

Oyez ! Oyez ! Le roi et la reine du château de Clever sont en fête !

Un par un, princesses, chevaliers et dragons commencent à arriver alors que la Cour se prépare activement.

Pour aider les clients à trouver leur place dans le château, le roi et la reine ont laissé un ensemble d'indices.

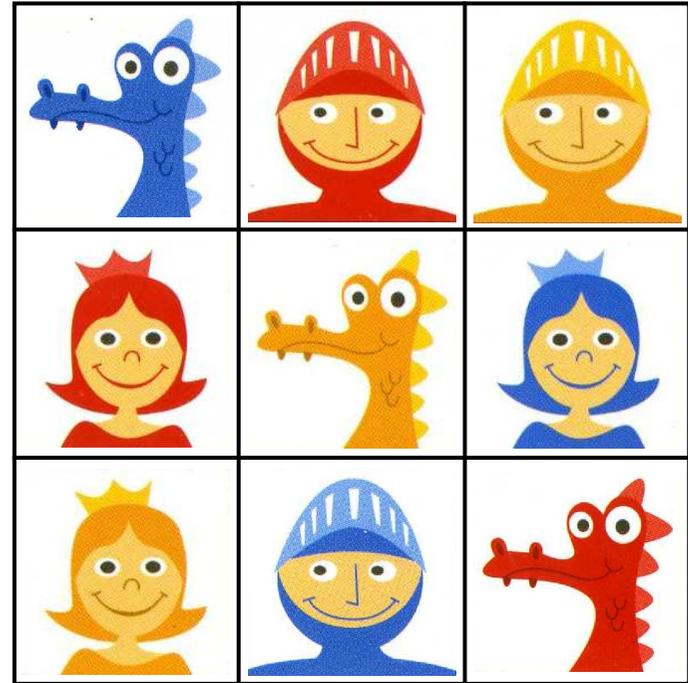

*Peux-tu utiliser les indices pour aider les neuf invités à la fête à comprendre quelle fenêtre est la leur ?*

*Clever Castle* est un jeu d'indices. Chaque carte de défi a des indices pour aider l'enfant à placer correctement les neuf pièces de jeu (les « invités à la fête ») dans les neuf cases du plateau du jeu (les « fenêtres du château »). La gamme des quarante défis s'étend de *facile* à *très difficile*. De 5 à 7 ans.
